

Avi Jain

Machine Learning Engineer | Data Science

+91 7909535251 Bhopal, India avijain1415@gmail.com linkedin.com/in/avijain1415 github.com/awheee

Aspiring Machine Learning Engineer and pre-final year B.Tech CSE (AI/ML) student at VIT Bhopal, focused on building data-driven solutions using Python, Scikit-learn, and full-stack deployment. Strong foundation in Data Structures and Algorithms with experience in developing and deploying practical ML projects.

EDUCATION

VIT Bhopal University <i>B.Tech. in Computer Science Engineering (AI & ML) – CGPA: 8.5</i>	Aug 2023 – Oct 2027 Bhopal, India
Campion School <i>Senior Secondary (Class XII) – Percentage: 83.2%</i>	May 2023 Bhopal, India
Campion School <i>Secondary (Class X) – Percentage: 95.8%</i>	Aug 2021 Bhopal, India

PROJECTS

Crowd Anomaly Detection System <i>Python, TensorFlow/PyTorch, OpenCV, CNN, ConvLSTM</i>	Oct 2025 – Apr 2026
- Developed a CNN-based autoencoder for spatial anomaly detection and extended the architecture with ConvLSTM to capture temporal patterns in crowd surveillance videos without labeled anomaly data. - Managed large-scale dataset preprocessing and optimized model performance through hyperparameter tuning, improving anomaly detection accuracy by ~15%.	
XMail - AI-Driven Email Categorization Engine <i>Python, Scikit-learn, NLP, FastAPI/Flask, React</i>	Dec 2025 – Feb 2026
- Built a supervised machine learning pipeline for automated email classification (Spam, Promotions, Social, Important) using text vectorization and model evaluation with cross-validation. - Developed and deployed a full-stack web application with FastAPI/Flask backend and React frontend, integrating Gmail API with OAuth 2.0 authentication and Google Cloud.	

POSITIONS OF RESPONSIBILITY

Entrepreneurship Cell (E-Cell), VIT Bhopal <i>Sponsorship Head</i>	Dec 2023 – Aug 2025 Bhopal, India
- Led a 12-member team for sponsorship outreach and partnership acquisition, improving sponsor engagement and conversions. - Increased total sponsorship revenue by 65% through strategic negotiations and long-term partner management. - Executed major events including E-Summit, contributing to 7,000+ total student participation.	

SKILLS

Programming: Python, C++, JavaScript, SQL
Machine Learning: Scikit-learn, NLP, Feature Engineering, Model Evaluation, TensorFlow, PyTorch
Data & Systems: Pandas, NumPy, Matplotlib, Seaborn, REST APIs, OAuth 2.0, Google Cloud
Tools: Git, GitHub, React.js, FastAPI, Flask, Data Structures & Algorithms, OOP

ACHIEVEMENTS & CERTIFICATIONS

- FinGenAI Hackathon:** Runner-up among 30+ teams for developing an AI-based stock market prediction system achieving 92% accuracy (Feb 2024).
- Applied Machine Learning in Python:** University of Michigan (Oct 2025).
- Cloud Computing - Elite Certificate:** NPTEL / IIT Kharagpur (May 2025).
- Fundamentals of AI and ML:** Vityarthi (May 2024).
- Google Cloud Computing Foundations and Generative AI:** Google (Jan 2024).

INTERESTS

Entrepreneurship, Quantitative Finance & Stock Markets, Artificial Intelligence, Generative AI, Applied Machine Learning, System Design
